Our company is a professional manufacturer producing fine structure high purity graphite series products, is the leader of the graphite industry, with isotropic high purity graphite high-tech advanced equipment and production line. Developing advanced materials and a wide range of solutions for the photovoltaic industry, aluminum industry, solar energy, nuclear energy, oil and gas, defense, aerospace and many other fields. The company has an independent research and development team, in the technology development, product testing and upgrading of continuous innovation. Products sales based on the domestic, focusing on Europe, Japan, the United States, Southeast Asia and other places, product quality is stable, good reputation, favored by domestic and foreign merchants.

The company takes the product demand as the guide, strives for the survival by the quality, strives for the development by the prestige, cooperates sincerely with the domestic and foreign customers with the first-class service, and wins together hand in hand.

发展战略
Development Strategy

创新性 Development strategy

自主研发新技术，生产新材料，争创新产品。

Independent research and development of new technology, production of new materials, striving for new products.

专业性 Professionalization

生产制造专业化，尽心打造一支集生产、研发、加工、销售、售后于一体的专业化团队。

Professional production and manufacturing, dedicated to build a set of production, research and development, processing, sales, after-sales in one of the professional team.

多样性 Diversification

合理优化资源配置，在保证产品质量前提下，发展产品种类多样化。

Rational optimization of resource allocation, on the premise of ensuring product quality, the development of product variety diversification.

国际性 Internationalization

面向国际市场，塑造公司品牌。

Face the international market, build the company brand.

应用领域
Application Field

WH石墨为**EDM行业、连续铸造、冶金、核工业、光伏、真空炉、航空航天**等众多领域开发先进材料和广泛的解决方案，使公司及其客户在未来继续成长和发展。

WH Graphite develops advanced materials and a wide range of solutions for the EDM industry, continuous casting, metallurgy, nuclear industry, photovoltaic, vacuum furnace, aerospace and many other fields, enabling the company and its customers to continue to grow and develop in the future.

产品生产及种类
Product Category

我们公司是生产和制造高纯石墨的专业厂家，在石墨碳素行业扮演着重要的角色，主要产品有：**EDM石墨、等静压石墨、模压石墨、挤压石墨、石墨棒、石墨模具、天然鳞片石墨粉**等。

Our company is a professional manufacturer of high purity graphite and plays an important role in the graphite industry. Our main products include EDM graphite, isostatic graphite, molded graphite, extruded graphite, graphite rod, graphite mold, natural flake graphite powder and so on.

产品工艺及特性
Process Flow & Characteristic

石墨是碳的一种**同素异形体，为灰黑色、不透明固体，化学性质稳定**，具有如下特殊的性质。

Graphite is an allotrope of carbon, a gray-black, opaque solid, chemically stable, with the following special properties.

耐高温 High temperature resistant

导热性 Thermal conductivity

导电性 Electrical conductivity

可塑性 Plasticity

润滑性 lubricity

抗腐蚀性 Corrosion resistance

耐酸碱性 Acid and alkali
